Installed a Heliport in the South Pole

The patented aluminum deck “AI Deck” has been set up at the Showa Station, Antarctica in 2006. The “AI Deck” can be constructed without the need for heavy machinery and is supporting safe operations in such extreme environments.

Delivered 30 helicopters to Ministry of Defense

The Japan Ground Self Defense Force has selected Aero Facility's representing Enstrom single turbine engine helicopter that are now all actively training for the future pilots.

Constructed Heliport on a hospital roof top

Installing our aluminum deck that is lightweight and easy to construct, improves visibility and supports safe landings. Including national hospitals, the decks have been installed by over 100 hospitals nationwide.

Consultation ●

- From Heliport planning to operation:** Staff with knowledge of aviation and constructions laws, will provide total support from the customer's standing point.
- Introduction on Drone services:** Aero Facility will design future plans using a drone, performing site surveys and aerial photography of the property.

Facility Division

Proposal for the Heliports that meet your needs.

Our professional staff provides a total production from consulting to design and construction consistently.

-Sophisticated design makes safety

Design ●

- Aluminum Deck Heliport:** Aero Facility's Aluminum Deck Heliport is known for "lightweight and a beautiful finish" along with "strong and maintenance-free".
- Ancillary equipment of Heliport:** Original products such as deicing equipment, aviation lighting, "Bond" elevator, fueling equipment, and sliding helipads are all available to be introduced.

Construction ●

- Hospital Heliports:** With high technology, Aero Facility has built safe heliports in a short period of time. Now we have a record of constructing over 100 hospital heliports nationwide.
- Disaster prevention Heliports:** In addition to emergency activities in the event of disaster, and working as a rendezvous point for EMS, we install various heliports that contribute to local medical activities.

Facility Division

Aircraft ●

●**Rotor wing and Fixed wing aircraft sales:** Aircraft are introduced to match the users' needs. Aero Facility has a record of selling a wide range of aircraft from the Self-Defense force to private users. We are also engaged in selling domestic second-hand aircraft overseas.
